Reasons for Allowance

Claims 1-11 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1 & 4 are allowable because the prior art of record does not teach or fairly suggest a bonding member comprising all the features as recited in the claims and in combination with a second bonding material including a brazing filler metal joining a side portion of the concave portion of the ceramic member and a side portion of the convex portion of the metal member.

Claims 2 & 3 are allowable as they depend from Claim 1, which is also allowable.

Claim 11 is allowable as it depends from claim 4, which is also allowable.

Claim 5 is allowable because the prior art of record does not teach or fairly suggest an electrostatic chuck comprising all the features as recited in the claims and in combination with a side portion bonding member including a brazing filler metal joining a side portion of the terminal bonding hole of the substrate and a side portion of the terminal member.

Claims 6-10 are allowable as they depend from Claim 5, which is also allowable.

As Applicants state on pages 11- 12 in the Amendment of 11 OCT 06, and the telephonic interview of 5 OCT 2006, Tamagawa et al. does not teach the claim language recited above as the second material (34) of Tamagawa et al. is a solder and not a brazing material. Tamagawa et al. teaches that the solder material acts as a filler and not a bonding material and should be able to expand with thermal change (column 9 line 25-56). As such the reference cannot be combined with Hiramatsu as the hard bonding material would not longer be able to perform the intended function of the soft solder. As such the claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott Bauer whose telephone number is 571-272-5986. The examiner can normally be reached on M-F 9am-6pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brian Sircus can be reached on 571-272-2058. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
